# IL NOSTRO PIANETA

Visioni trasforma il vetro in porte e strutture, crea un legame con il nostro mondo, combinando produzione di qualità e design moderno per creare uno spazio nuovo in ogni casa.

*Visioni transforms glass into doors and structures, creates a link with our world, combining quality production and modern design to create a new space in every home.*

# PORTE E STRUTTURE IN VETRO, VISIONI D'ITALIA

L'arte e la creatività italiane di Visionsi, il brand di porte e strutture in vetro: ogni pezzo è un'opera d'arte, un'emanazione di stile e qualità Made in Italy, che trasforma gli ambienti con raffinatezza.

*The Italian art and creativity of Visionsi, the brand of glass doors and structures: each piece is a work of art, an emanation of Made in Italy style and quality, which transforms environments with refinement.*

# DESTINAZIONI SORPRENDENTI

Viaggia nel futuro delle porte in vetro con le nostre ultime creazioni.

Innovazione, design d'avanguardia e funzionalità si fondono in un mondo di possibilità senza limiti.

*Travel into the future of glass door art with our latest creations. Innovation, cutting-edge design and functionality come together in a world of limitless possibilities.*

# CANVAS

intreccio  
tra vetro, tessuto  
e alluminio

La stoffa all'interno del vetro, per personalizzare le proprie porte con un design unico ed originale. Cinque trame e colori differenti, abbinare ad un vetro extrachiaro, capace di adattarsi ad un design ricercato ed unico.

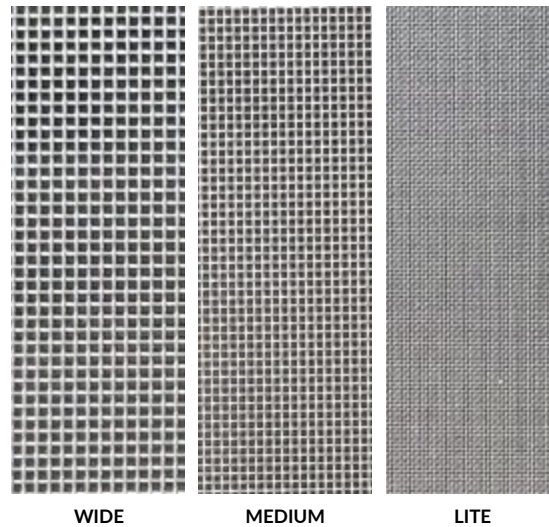

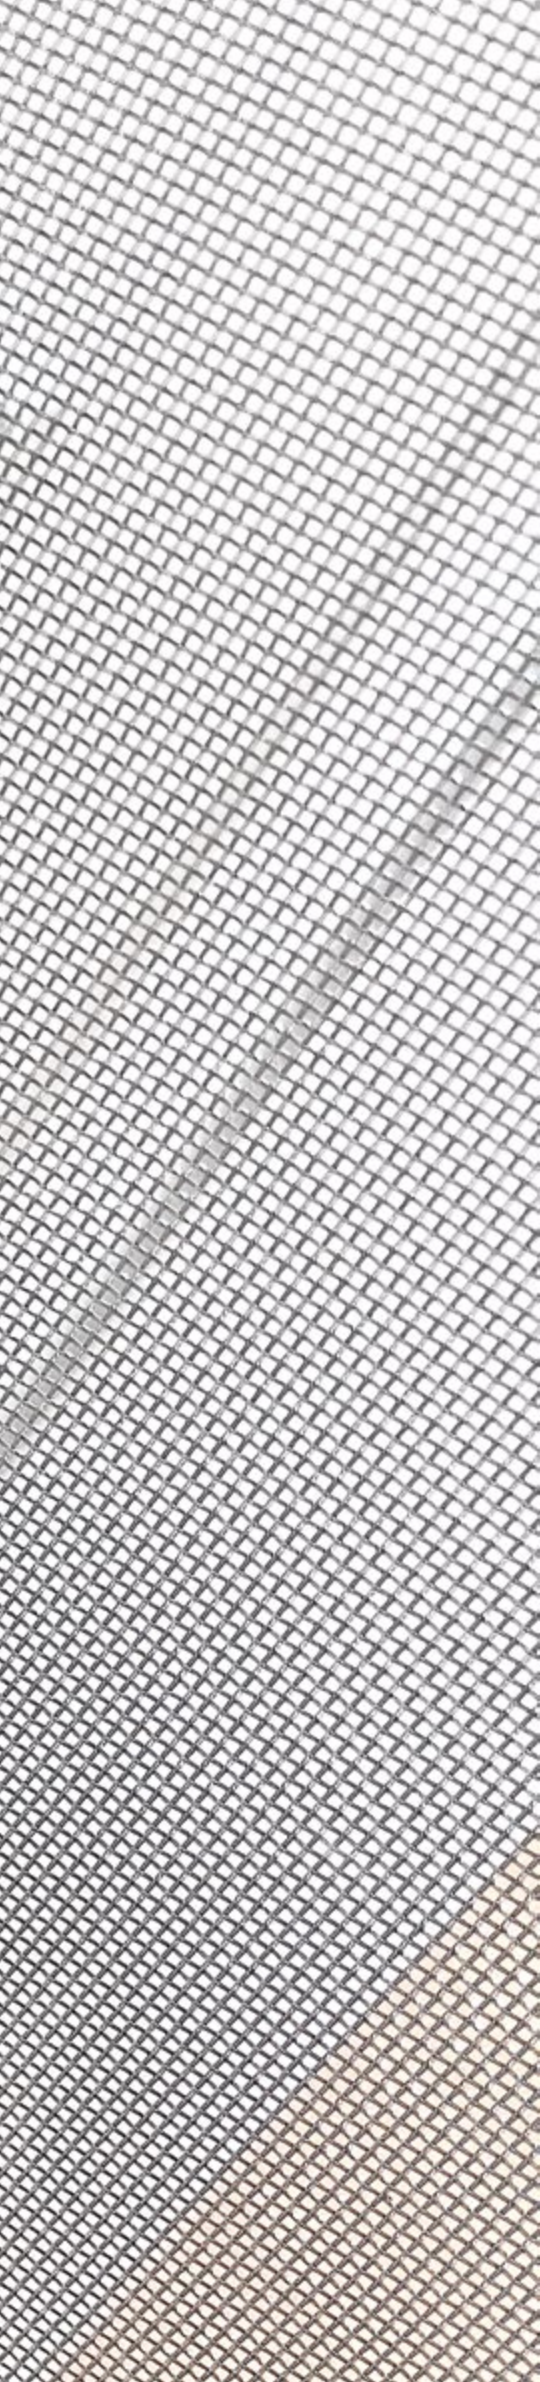

## CANVAS INTERWEAVING OF GLASS, FABRIC AND ALUMINIUM

*The fabric inside the glass, to personalize your doors with a unique and original design. Five different textures and colours, combined with extra-clear glass, capable of adapting to a refined and unique design.*

## CONNECTION

una rete  
di riflessi per  
un vetro unico

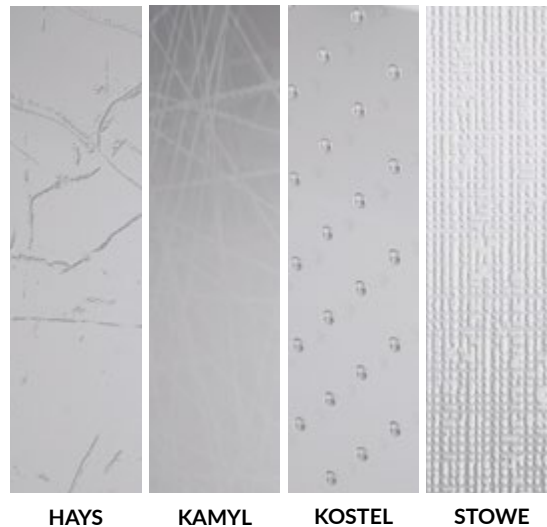

La serie di vetri "Connection" ha un cuore d'acciaio. Tre reti metalliche con trame differenti, accoppiate ad un vetro extrachiaro, grigio o bronzo, conferiscono alla porta un tocco personale dal design moderno e delicato.

AN INTERCONNECTED NETWORK  
IN TRANSPARENCY, A UNIQUE GLASS

*The "Connection" glass series has a heart of steel. Three metal meshes with different textures, coupled with extra-clear, gray or bronze glass, give the door a personal touch with a modern and delicate design.*

## **MATERICI** l'impronta della materia impressa nel vetro

Una texture appena percepibile,  
delle linee fitte ed irregolari,  
tanti piccoli puntini simmetrici,  
un rilievo geometrico su fondo satinato:  
vetri unici, adatti per chi vuole  
discrezione senza rinunciare alla luce.

### THE IMPRINT OF THE MATERIAL IMPRINTED IN THE GLASS

*A barely perceptible texture, thick and irregular lines, many  
small symmetrical dots, a geometric relief on a satin  
background: unique glass, suitable for those who want  
discretion without giving up light.*

## **WOOD** il legno ridisegnato dal vetro

Porte in vetro eleganti con profili in alluminio e inserti in legno: l'armonia di materiali nobili e modernità, un connubio di stile e funzionalità per ogni ambiente.

### THE WOOD REDESIGNED FROM GLASS

*Elegant glass doors with aluminum profiles and wooden inserts: the harmony of noble materials and modernity, a combination of style and functionality for every environment.*

## **PROFILE** il profilo nella versione a battente

Porte in vetro, profili in alluminio  
sottili come l'eleganza.  
Trasparenza e design si fondono in  
un'incredibile leggerezza, donando  
luce e modernità ai tuoi spazi."

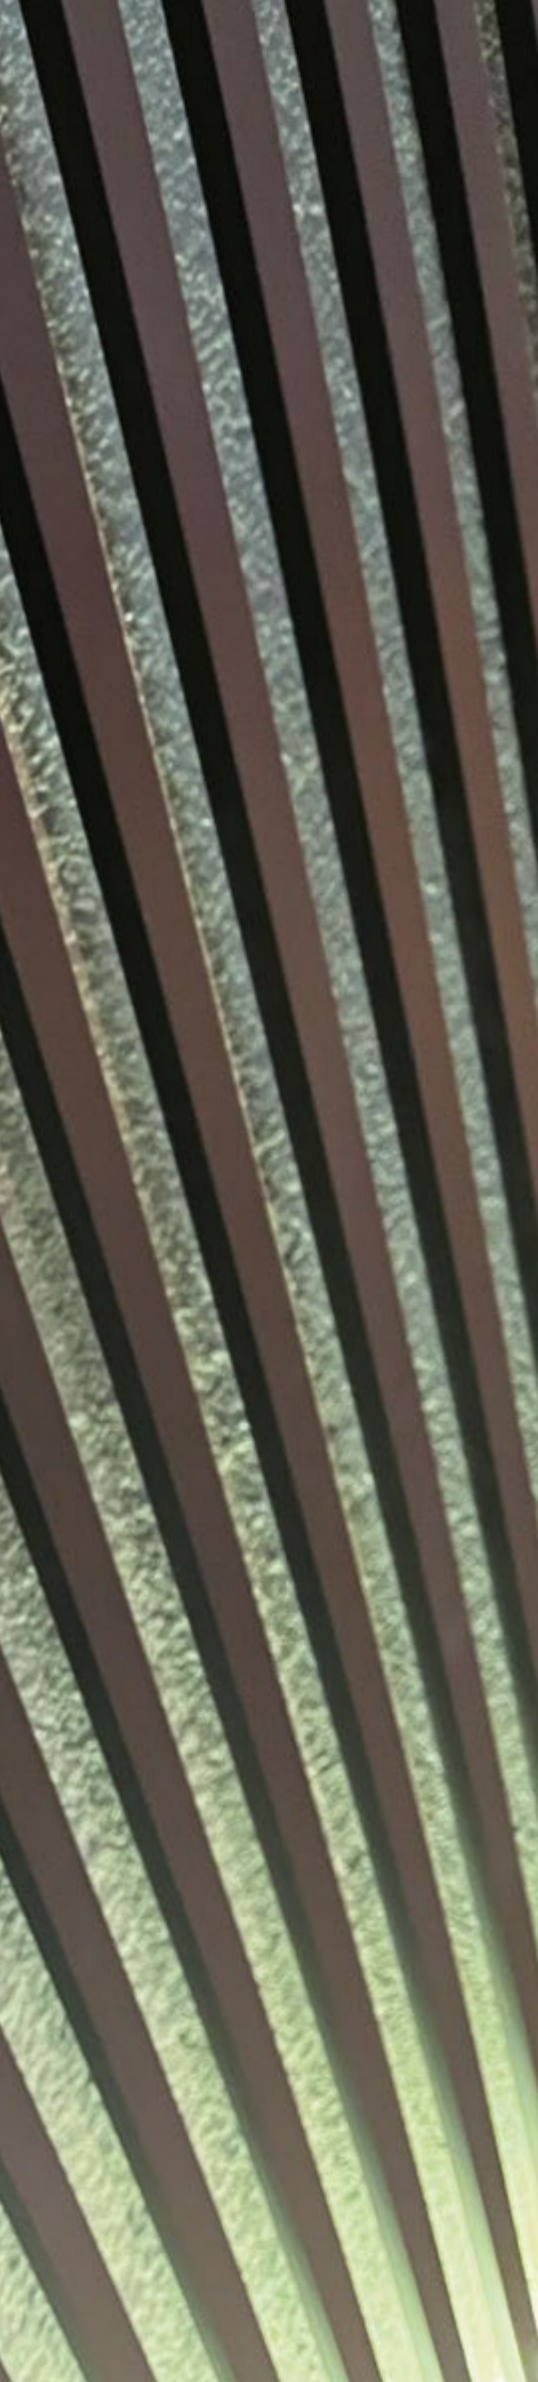

### THE PROFILE IN THE SWING VERSION

*Glass doors, aluminum profiles as thin as elegance.  
Transparency and design come together in an incredible  
lightness, giving light and modernity to your spaces."*

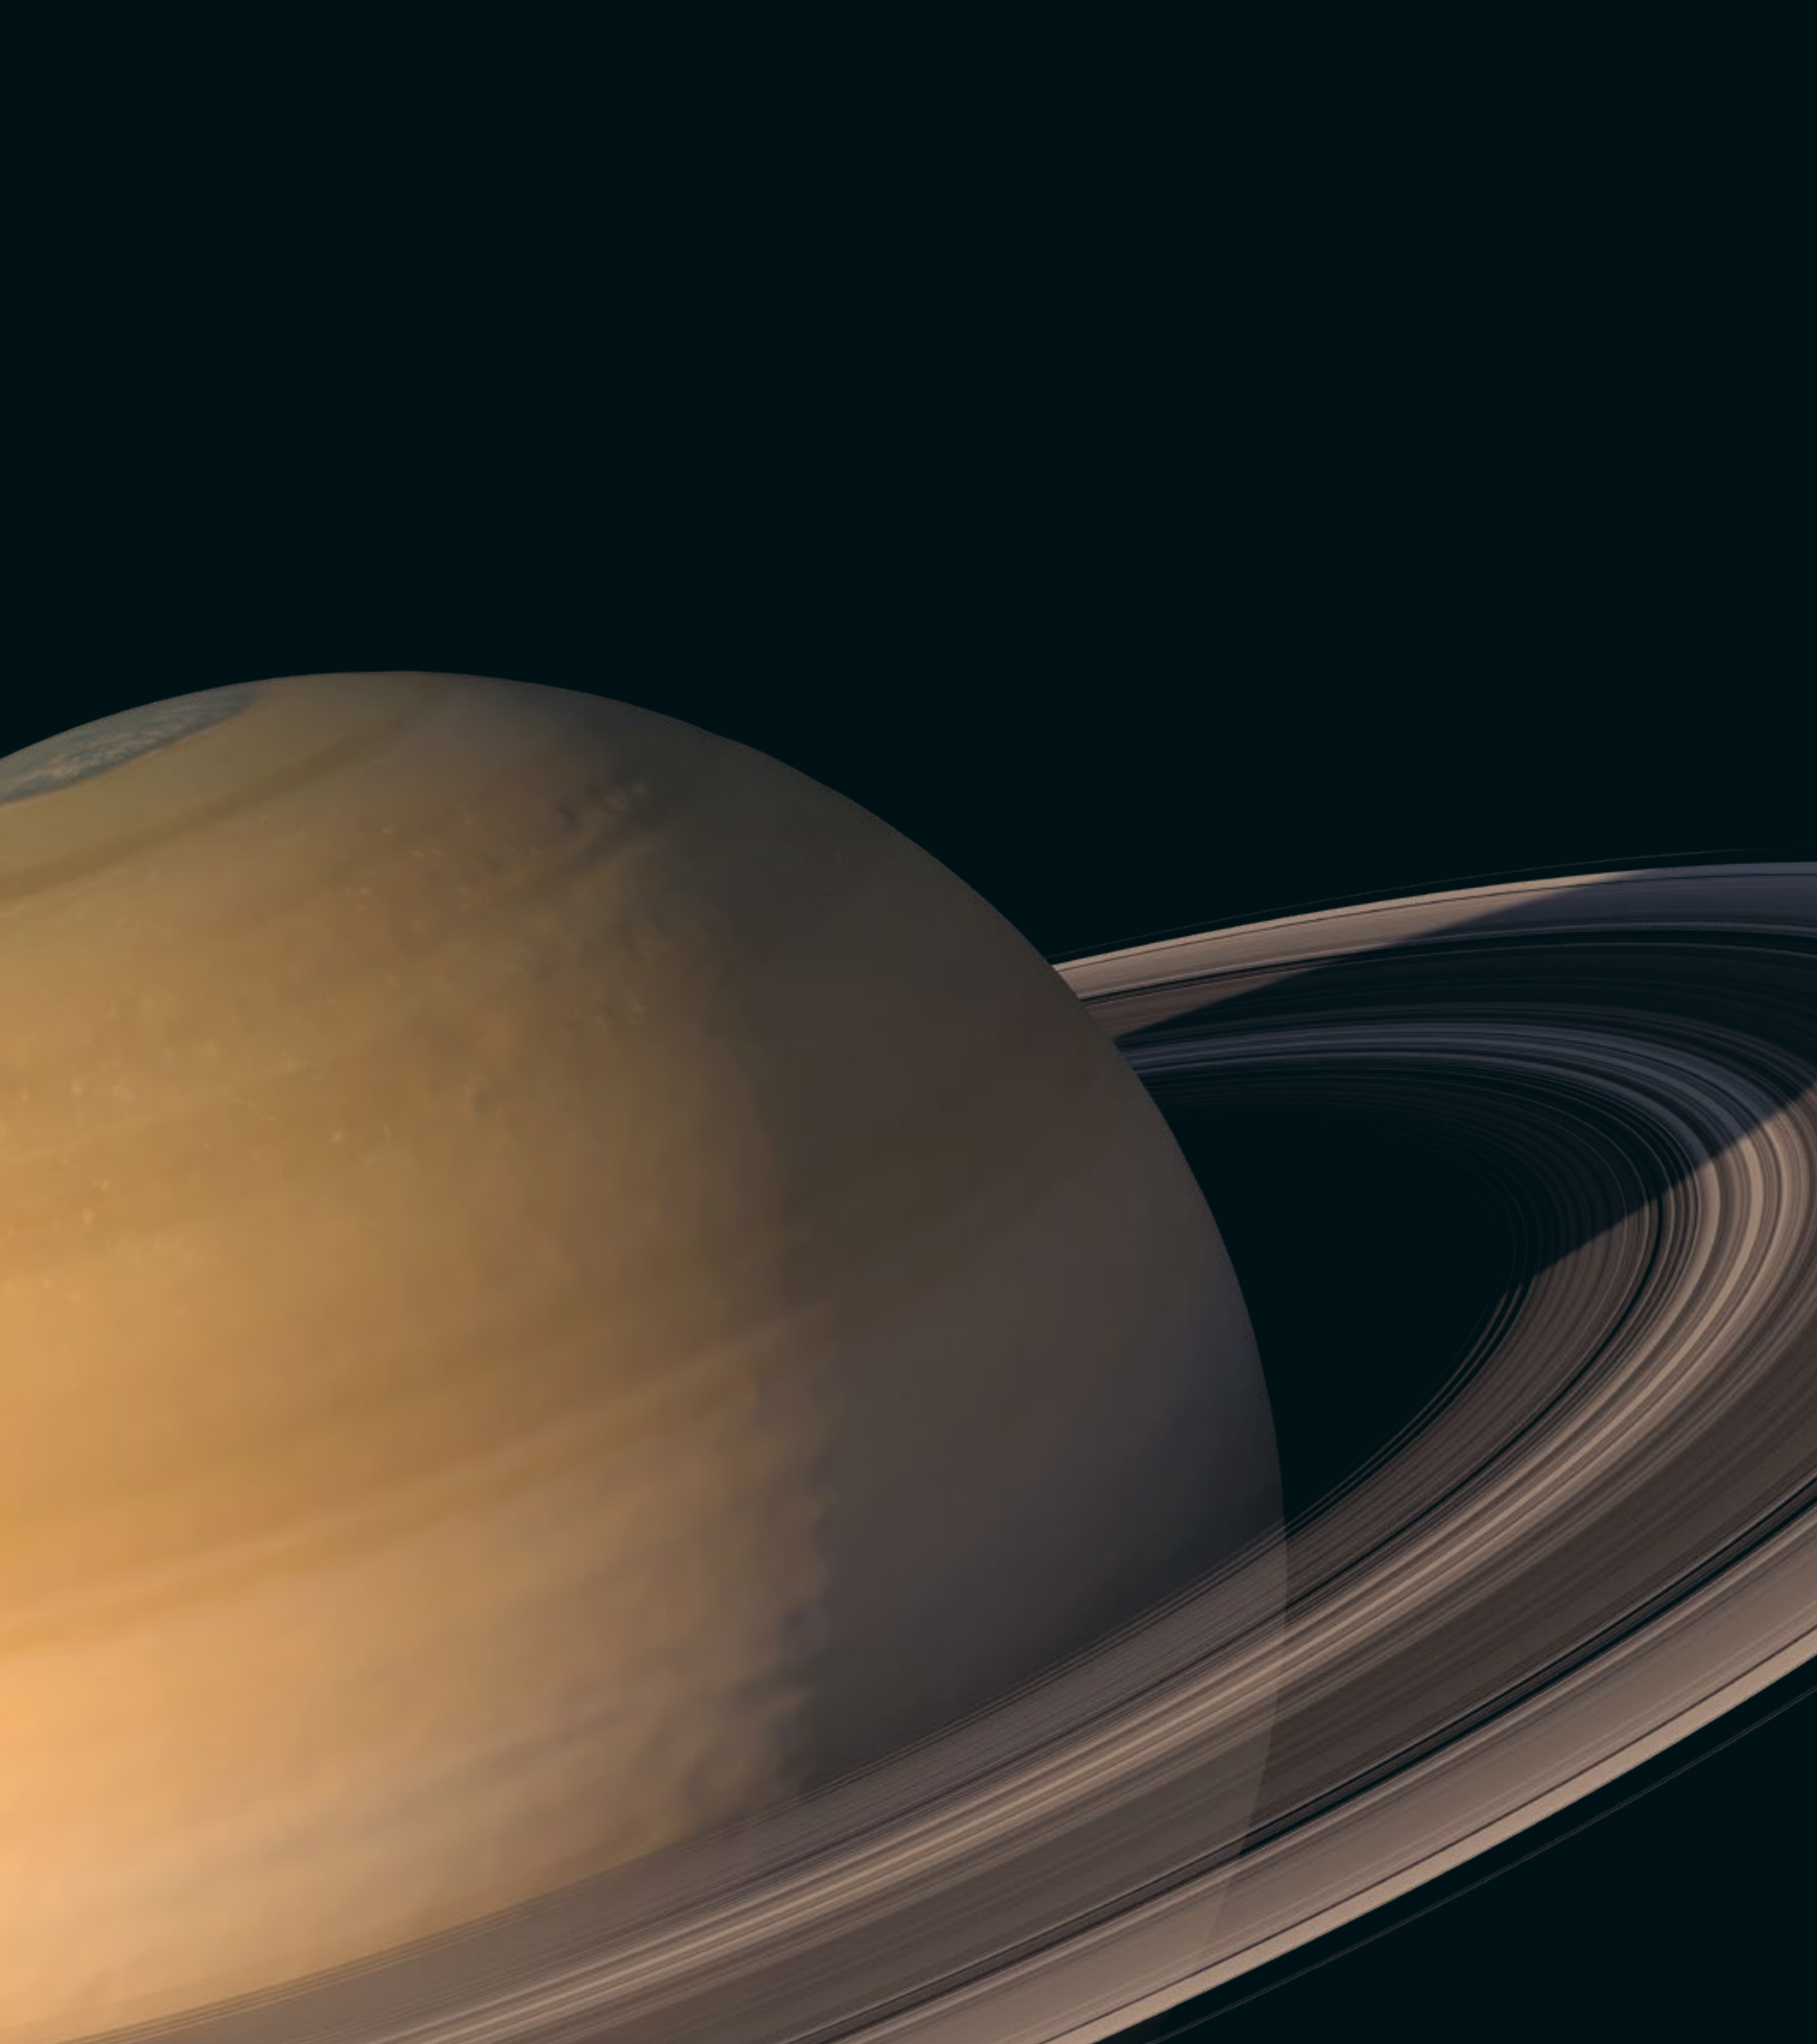

## **INDUSTRIAL** alluminio, vetro e affascinanti geometrie

Porte in vetro con profili in alluminio  
a quadri di ispirazione urbana:  
la fusione tra modernità e design dà  
vita ad interni dall'aspetto distintivo.

### ALUMINIUM, GLASS AND FASCINATING GEOMETRIES

*Glass doors with urban-inspired checked aluminum profiles:  
the fusion between modernity and design gives life to interiors  
with a distinctive look.*

# IL VETRO IN MOVIMENTO

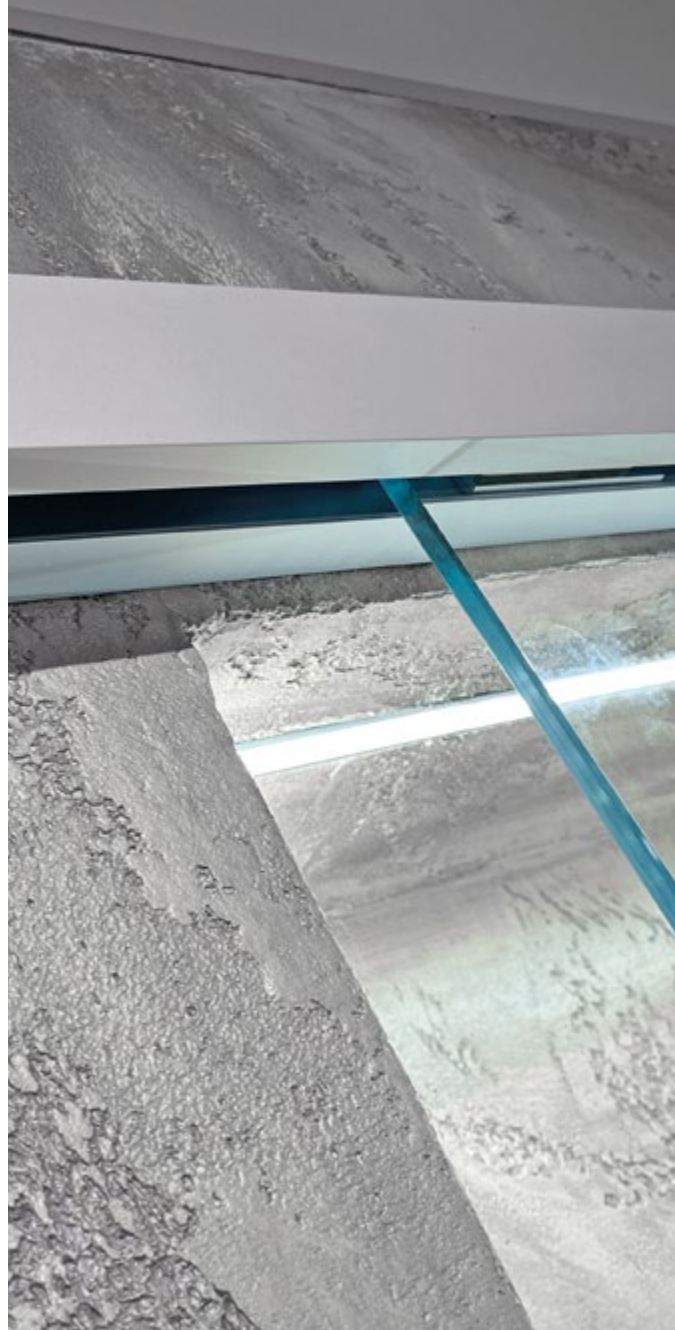

Esplora un mondo di possibilità  
con le nostre porte in vetro:  
dalle scorrevoli interne ed esterne  
alle soluzioni più classiche,  
apri le porte alla tua creatività.

*Explore a world of possibilities with our glass doors:  
from internal and external sliding doors to more classic  
solutions, open the doors to your creativity.*

MAESTRO:  
il sistema di scorrimento  
esterno per porte in vetro  
che unisce l'eleganza  
minimale del design al  
binario silenzioso  
ed affidabile.

MAESTRO:  
*the external sliding  
system for glass doors  
that combines the  
minimal elegance of the  
design with the silent  
and reliable track.*

# COLORI E PROFILI

La Poesia dei Colori.

Scopri come il vetro ed i profili in alluminio possono trasformare l'ordinario in straordinario. Scegli tra una vasta gamma di colori per definire il tuo stile.

*The Poetry of Colors. Discover how glass and aluminum profiles can transform the ordinary into the extraordinary. Choose from a wide range of colors to define your style.*

# Laccati lucidi

La laccatura del vetro viene eseguita sulla superficie interna di 2 lastre di vetro temprato dello spessore di 5 mm, successivamente vengono accoppiate, garantendo l'inalterabilità dei colori nel tempo. La lavorazione viene eseguita esclusivamente su vetri extrachiari per non alterare il colore e rendere la massima brillantezza superficiale (100 gloss).

*The glass lacquering is carried out on the internal surface of 2 sheets of tempered glass with a thickness of 5 mm, which are then coupled, guaranteeing the unalterability of the colors over time. The processing is carried out exclusively on extra-clear glass so as not to alter the color and provide maximum surface shine (100 gloss).*

LACCATO lucido PORPORA

LACCATO lucido MALVA

# Laccati satinati

Come per la laccatura lucida, anche per il satinato viene eseguita sulla superficie interna di 2 lastre di vetro temprato e satinato dello spessore di 5 mm. Successivamente vengono accoppiate, lasciando il lato satinato delle due lastre all'esterno. La lavorazione viene eseguita esclusivamente su vetri extrachiarissimi per non alterare il colore, al tatto risulterà una superficie vellutata.

*As for glossy lacquering, also for satin lacquering it is carried out on the internal surface of 2 sheets of tempered and satin glass with a thickness of 5 mm. They are subsequently coupled, leaving the satin side of the two sheets on the outside. The processing is carried out exclusively on extra-clear glass so as not to alter the colour, it will result in a velvety surface to the touch.*

# Satcolor satinati

Il vetro utilizzato è uno stratificato 5+5 mm e permette di avere una lastra colorata senza perdere l'effetto di trasparenza e di luce. La colorazione è effettuata sulla superficie satinata interna della lastra, in questo modo sarà possibile pulire l'anta senza andare a intaccare il decoro, che rimarrà inalterato nel tempo.

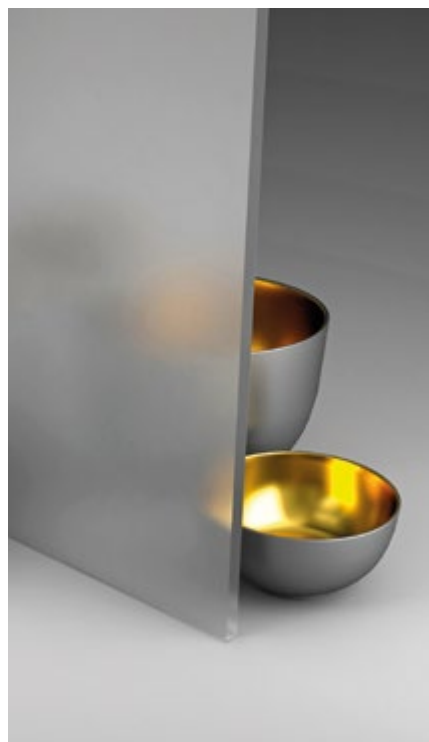

*The glass used is a 5+5 mm laminate and allows you to have a colored sheet without losing the effect of transparency and light. The coloring is carried out on the internal satin surface of the slab, in this way it will be possible to clean the door without damaging the decoration, which will remain unchanged over time.*

# SERRATURE, MANIGLIERIA E ACCESSORI

Porte in vetro perfette.  
Trova l'accessorio ideale  
per la tua porta in vetro.  
Dalle cerniere alle maniglie,  
trasforma la tua esperienza di apertura.

*Perfect Glass Doors. Find the ideal accessory  
for your glass door. From hinges to handles,  
transform your opening experience.*

# FINITURE DISPONIBILI

AVAILABLE FINISHES

Tutt'altro che optional!  
Maniglie, serrature e cerniere sono punti nevralgici delle porte "Visioni". Funzionali, robusti ed esteticamente essenziali gli accessori che compongono le nostre realizzazioni sono quel valore aggiunto che rende ogni apertura in vetro un inno alla condivisione e un invito al dialogo.

*Anything but optional! Handles, locks and hinges are basic items of 'Vision doors'. The accessories of our creations are functional, strong and aesthetically essential. They are the hallmarks that make every glass opening an ode to sharing and a suggestion to the dialogue.*
